

Innovation and Excellence
redefined in
Electro Mechanical Solutions

Quality Assured Engineering Excellence

MD's Message

We have established Z TEC as an electro-mechanical service contractor. Our business goal as of now is to pan our services in the South of India with Kerala being the hub, in the field of Plumbing, Drainage, Fire fighting, and Maintenance work.

Within a short span of time Z TEC has gained prominence for its commitment and is well known in the industry and commerce circle for its admirable ability to deliver diverse projects. No matter how challenging the project is, we have stuck to our time-bound commitment and stipulated budgets. All this applying stringent quality measures for materials construction and engineering techniques that is at par with international standards.

We have always strived to provide our clients with the most professional and reliable services available. We fervently work towards achieving our clients' project goals and operational objectives.

My confidence stems from my faith in our team of qualified and experienced engineers and technical staff. We have achieved success in our vision and shall continue to do so.

To provide exemplary services and 'Quality Assured Engineering Excellence' to our customers, who are our most valuable asset, is our supreme goal now and always.

Without a doubt, I would like to state the company's philosophy as; on-time completion and complete client satisfaction.

P. K. Sunil
Managing Director

About Z TEC

Z TEC MEP Services LLP, specializes in providing electro-mechanical contracting services with its formidable team of skilled and professionally qualified engineers and technicians. We operate in Kerala, Coimbatore and Mangalore.

We have been delivering top notch services to our elite clientele in various sectors. We have served the industry and commerce with total dedication driven by innovation and excellence. We have always hallmarked the projects executed by us, with quality, time-bound commitments well within the stipulated budget.

We have been committed to consistently providing comprehensive and professional electro-mechanical engineering services in the whole range of engineering projects, be it small or large Hotels, Hospitals, Apartments, Shopping Malls etc.

Our turnkey operations include the engineering design, supply, installation, testing, commissioning and maintenance of a diverse range of Plumbing, Fire-fighting services and Engineering projects.

Each and every stage of our projects is categorically managed by an exclusive team of professionals specialised in the required technical discipline. The team dedicatedly ensures that each project is completed and handed over on the stipulated time, while maintaining internationally accredited quality standards.

Even as we humbly acknowledge being the youngest companies in the field, the trust we have developed amongst our clients has accelerated our growth to put us in the top slot. Our achievement is well attributed to the fact that we have been ensuring that our clients always get value for their money.

Plumbing

Plumbing involves installation, repair and maintenance of a piping system that is used for channeling fluids of any type. Plumbing is essential in residential or commercial piping for drinking water, gas, drain pipes etc.

COMMERCIAL PLUMBING

We have a team of experts with varied experience in handling plumbing issues related to relaying and sanitization of large public plumbing systems such as schools & colleges, shopping malls, and hospitals.

We have successfully implemented the installations, repairing, and maintaining of pipes in commercial and industrial buildings.

RESIDENTIAL PLUMBING

We have an experienced team who are specialized in working on residential jobs such as new constructions and new additions to homes. We troubleshoot and install plumbing mechanisms in homes to keep the home running smoothly. Our services guarantee you optimum satisfaction.

SERVICE AND REPAIR PLUMBING

As a part of our maintenance services we have a team of experts who have been imparted special technical training in problem solving of issues related with the plumbing in your home or business. So if you have a problem, we provide the solution.

Fire Fighting Services

As simple as it may sound, Fire Fighting is a bit more complicated than that. Fire can be classified into four types and has to be handled accordingly:

- Fire arising out ordinary combustibles as paper, wood, cloth and some plastics.
- Fire from Flammable liquids such as alcohol, ether, oil, gasoline and grease.
- Fire in Electrical equipment, appliances and wiring.
- Fire started by certain flammable chemicals such as sodium and potassium.

Our clients vouch for our expertise on fire fighting.

As a professional Fire Fighting Equipment Installation Service; we offer a wide range of products. Our company offers customized services tailored to client requirements. We have a team of professionals; proficient in handling latest techniques; that has been instrumental in helping us acquire a strong client-base for our services. We are meticulous in collecting information to identify and assess the entire gamut of foreseeable fire and related risks. We ensure that enough provisions are made for prevention and protection activities. We ensure complete safety and quality assurance in our fire fighting systems. Our service principle is to put the maximum effort in protecting life and minimal damage to property in the event of fires.

We feel responsible towards your safety. Because we understand "loss".
